

Dear Customer,

## Primers & Topcoats - Supply and Name Changes

After careful consideration, Tremco CPG UK Limited has decided to rebrand our Nullifire primers and topcoats. We will continue supplying both products, however moving forward some of which will now come from our sister groups company, Carboline. As such, we will continue to guarantee full compatibility with Nullifire intumescent coatings and, therefore be able to offer the full steel protection system.

This letter serves as formal notification of the discontinuation of the use of old product names. We acknowledge our obligation to promptly inform customers of the changes to the affected products and the alternative solutions available moving forward. These changes will also be reflected in our customer pricing cards, which will be reissued shortly. Please note that product codes will remain unaffected.

### Products Affected:

Current	New Product Details	
- FC002	Carboline Thinner 2	
- FC010	Carboline Thinner 10	
- FC025	Carboline Thinner 25
